

Nazmus Sakib

ML Engineer · AI Product Builder · Full-Stack Developer

Khulna, Bangladesh · GitHub: github.com/Nazmussakib247 · LinkedIn: linkedin.com/in/nazmussakib247 · Medium: medium.com/@nazmussakib.cse.nubt

Profile

ML Engineer building practical AI products with Python, NLP, LLMs, and full-stack systems. Current work and public projects span bilingual sentiment analysis, AI-assisted recruitment, multi-agent business automation, and resilient product engineering.

Experience

ML Engineering Intern · FlyRank AI — July 2026 cohort · Machine Learning Track

Focus areas include semantic search, intent classification, answer engine optimization, and building practical AI systems.

Computer Science & Engineering · Northern University of Business & Technology, Khulna

Selected Projects

Hirelay — AI Recruitment Platform

AI-assisted CV parsing, transparent candidate matching, interview scheduling, job posting, and recruitment analytics.
github.com/Nazmussakib247/hirelay

SentimentScope — Bilingual AI Analysis

English and Bangla sentiment analysis with explainable rules, in-browser ML training, visualizations, and optional LLM chat.
github.com/Nazmussakib247/sentimentscope

Swadeshi — Digital Craft Storefront

Evidence-led craft storefront for Bangladeshi textiles with React, Express, SQLite, accounts, collections, orders, validation, and CI.
github.com/Nazmussakib247/swadeshi

Enterprise NeXus — Multi-Agent AI OS

Five-agent business automation concept covering HR, Finance, Support, Analytics, and Executive operations with security intelligence.
github.com/Nazmussakib247/CSE4204-8B-T04-Enterprise-Nexus-Multi-Agent-AI-Business-Automation-OS-with-Security-Intelligence

Neighbour · SpamGuard AI

A local-services marketplace and a practical spam-detection dashboard demonstrating full-stack product engineering and applied ML.
github.com/Nazmussakib247/neighbour · github.com/Nazmussakib247/spamguard-ai

Technical Focus

Python · TypeScript · React · Next.js · Node.js · Express · FastAPI · SQLite · PostgreSQL · scikit-learn · TensorFlow · LangChain
· LLM workflows · RAG · Git · Docker · n8n

Writing

Published writing covers Hirelay, Swadeshi, SentimentScope, strategic model selection, inference mechanics, and a production-grade AI engineering stack. Read more at medium.com/@nazmussakib.cse.nubt.
